WORK EXPERIENCE

Jun 2013 to
Current

.NET Developer at CREATOR, London

- Architected and maintained solutions for leading multinational and national brands such as TUI Group(Thomson, First Choice), Liberty Global (Virgin Media,UPC), MSD, Late Rooms, De Vere Group.
- .NET solutions delivered using a variety of different platforms such as ASP.NET MVC, Web API, Web Forms, Windows Services and Web Services.
- Developed high traffic scalable systems making use latest .NET features such a TAP and Parallelization libraries.
- Ensured successful and robust .NET delivery in complex multi departmental projects though use of Scrum, TDD and continuous integration.
- Assisted and mentored other developers whilst also gaining a great deal of experience from working in a cohesive environment with senior developers.

Oct 2011 to
Jun 2013

Freelance Software Engineer at THE TIN LTD, London

July 2010 to
Oct 2011

1 year Industrial Placement at THE TIN LTD, London

- Developed solutions for a variety of clients ranging from startups to leading global such as *PwC*, *O₂* and *P&O Cruises*. My general role was to architect, build, test and maintain a variety of solutions such as CMS systems, web services and Consumer facing sites. This role required a great deal of communication with clients to specify their requirements and resolve technical issues efficiently and expediently.
- Back-end development conducted primarily in ASP.NET MVC 2-4 using FLuent Nhibernate with MSQL with some maintenance still being conducted on legacy ASP.NET Web Form systems.
- Front-end development made use JQuery, and various plugins to produce slick AJAX based interfaces. These skills were also utilized to produce Mobile applications using PhoneGap.
- This role required the ability to work well under pressure and communicate well with colleagues and clients to produce applications with complex requirements and tight deadlines.
